

ProUSB software upgrading

- 1) Download the upgrading file and put on the computer desktop,
(upgrading file like below icon)

- 2) double-click and open the upgrading file ,(language will be recognized automatically)

HIGHLY SUGGESTION!

Please close 360 or another anti-virus software before starting to upgrade the door lock software!

3) Then click “升级 V9.27.50 门锁软件”，

4) Click “确定”

5) Click “确定”

6) After finishing ,open the proUSB software ,it shows PCLMS-V9.27A on it ,that means upgraded successfully.
